# The email with everything your business needs!

For every business, to compete in today's market, it is essential to start an online presence with a professional image. Rediffmail Enterprise Standard is starter plan for SMEs that includes everything you need

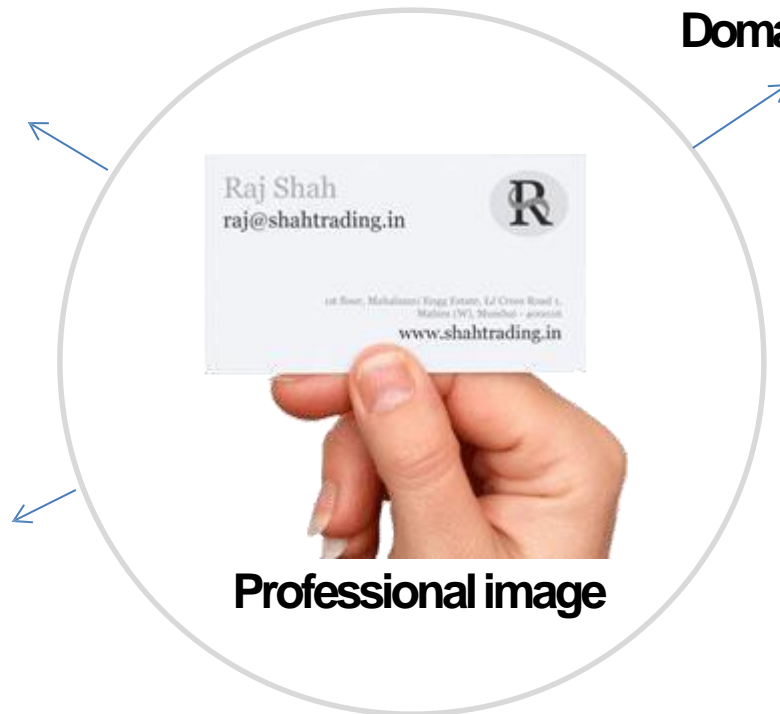

**Your branded company email id**

**Domain name**

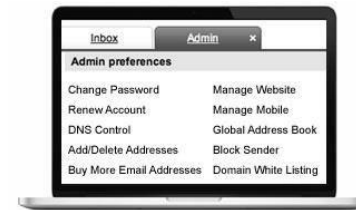

**Email App for your mobile**

**Professional image**

# Professional Email for companies

## Your company name in your email ID

- Project your brand each time your employees send mail e.g. [sales@xyz.com](mailto:sales@xyz.com)
- Use a domain you already own or get a new domain name best fits your company name. Choose from .com, .in, .co.in and other domain registration options.

## Seamless access across PC, mobile phone, tablet

- Mobile app that works on most phones and tablets.
- Get new mail notifications to keep track of business emails.
- Block email access when employees leave organisation.

## Easy to use administration controls

- Your IT administrators need many different tools to protect your company's interest:
- Prevent people outside your network from accessing your email.
- Control what kind of attachments can be sent or received.
- Control additions and deletions to the official Address Book.

# Buying process

1. Start with how many number of email IDs your organisation needs and pick per mailbox storage space - 1, 2, 5, 10 or 25 GB. All users on your domain will have the same mailbox storage space, as per your selection and this storage space is non-transferable (Multiple size mail boxes, multi-domain and quota management is available only in Advanced email plan). You can buy additional IDs or upgrade to Advance email as required (Options to buy additional storage & addons available only in Advanced email plan). If you are switching, your email data from previous email service provider's servers will not be migrated (Available in Advanced email only) and hence you will start with zero mail inbox.
2. Check the availability of your domain e.g. yourcompanyname.in. (If you already have the domain just enter your domain name, declare that you already own this domain and proceed).
3. Pay online via Credit/Debit card, NetBanking or PayPal, to set up your email ID and start using immediately. Payments via NEFT and Cheque/DD will be service activated on realisation in our bank account.
4. Once your service is activated, you will get a welcome mail in the contact email ID you have provided at the time of buying the service. Just follow the instructions in the mail to set up your first ID (admin ID) and then login into that ID from rediffmailpro.com and go to 'admin' link on top right to go to admin panel, where you can create other IDs on your domain.
5. Buy additional IDs & renew from within your admin panel.
6. Take any assistance send a mail to [CustomerSupport@rediff.co.in](mailto:CustomerSupport@rediff.co.in) to raise a support ticket and follow up on our IVR 022-61820200 - Select 1 for 'Products', Select Rediffmail & then Select customer support to speak our executive - Monday to Saturday 9am to 7pm.
